

# Asmit Singh

Computer Science Engineering

Greater Noida, Uttar Pradesh | +91 8004413591 | asmit.singh.in@gmail.com

github.com/asmit4e | Portfolio | linkedin.com/in/asmit-singh

## CAREER OBJECTIVE

Motivated Computer Science student with a strong foundation in software development, web technologies, and AI-powered applications. Passionate about building scalable and user-centric solutions while continuously improving technical expertise, problem-solving abilities, and collaborative skills in a professional development environment.

## EDUCATION

|                                                                             |                           |
|-----------------------------------------------------------------------------|---------------------------|
| <b>Bachelor of Technology (B.Tech) – Computer Science &amp; Engineering</b> | <b>2022 – 2026</b>        |
| ITS Engineering College, Greater Noida (AKTU)                               |                           |
| <b>Intermediate (Class XII)</b>                                             | <b>2022</b>               |
| Gyan Bharti Inter College, Chitrakoot                                       | Percentage: <b>75.02%</b> |
| <b>High School (Class X)</b>                                                | <b>2020</b>               |
| CPS Residential College, Chitrakoot                                         | Percentage: <b>74.16%</b> |

## TECHNICAL SKILLS

**Programming Languages:** HTML5, CSS, JavaScript, Python, C

**Web Development:** Responsive Design, REST APIs, DOM Manipulation

**Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

**AI & Emerging Technologies:** Generative AI, Prompt Engineering, Large Language Models (LLMs), AI Tools

**Developer Tools:** Git, GitHub, VS Code, MySQL

## PROJECTS

### Pulse – AI-Powered Real-Time News & Intelligence Platform

Developed an AI-powered news aggregation platform that collects and delivers real-time news from multiple trusted sources. Integrated AI-generated summaries, intelligent categorization, multilingual support, personalized recommendations, and sentiment analysis to provide a faster and more personalized news experience.

*Technologies:* HTML5, CSS, JavaScript, Python, AI APIs, REST APIs, GitHub

### MediKart – Smart Pharmacy Management System (Major Project)

Developing a comprehensive pharmacy management system to streamline medicine inventory, billing, prescription management, customer records, and sales tracking. The system is designed to improve operational efficiency, minimize manual work, and provide secure data management for pharmacies.

*Technologies:* HTML, CSS, JavaScript, MySQL

### Single Key – School Management System

Designed and developed a centralized school management platform to manage student records, attendance, teacher information, academic performance, and administrative operations through an intuitive and user-friendly interface.

*Technologies:* HTML, CSS, JavaScript, MySQL

## TRAINING & CERTIFICATIONS

- Data Structures & Algorithms using C++
- C/C++ for Developers
- Artificial Intelligence & Machine Learning
